## Fly Safe With Advanced Obstacle Avoidance

The EVO Nano series is the first and only aircraft series of its size to offer an advanced obstacle avoidance system — making it the obvious choice for users looking to avoid crashes and preserve the life of their aircraft. With three-way binocular vision sensors that enable the drone to perceive obstructions in front of it, behind it, and below it, the Nano+ can easily brake to avoid collisions.

## Fly Free - No Lags, No Limits

Fly farther while maintaining crisp, clear visuals with Autel SkyLink, our strongest image transmission system yet, which offers a transmission range of 6.2 miles, transmission quality of 2.7K/30FPS, and superior anti-interference capabilities, all while relaying stunning HD video.

## Cinematic Shots With A Single Click

Create dramatic, professional-level shots at the touch of a button with four automatic shooting modes. Add a soundtrack and filters in the Autel Sky App to make your video even more epic, allowing you to produce unforgettable results whether you're a veteran pilot or completely new to the drone game.

## Dynamic Track 2.1: Master Subject Tracking

Recruit your Nano to automatically follow any person so you can focus on your activities while your Nano handles the cinematic side.

### • Standard Package

### • Premium Bundle

1. Aircraft (including battery, propellers) 2. Remote Control 3. Spare Propellers (pair) 4. Gimbal Cover 5. Spare Battery 6. Lightning / USB-C / Micro-USB Connector 7. USB-C Charging Cable 8. Screwdriver 9. Shoulder Bag 10. Power Adapter 11. Propeller Holder 12. Multi-Charger
